

7BR Tamarindo Home with Huge Rental Potential

This elegant 7BR Playa Tamarindo home is one of few properties with so many possible uses - it can be rented as a single high-end vacation property, or its owners can live in the 3BR main house while renting four rooms around the pool, thanks to separate access. Or it would be the perfect place for a digital campus, with a number of comfortable workspaces available around the property. There is even room for a small eatery; a new owner could open a B&B with a small restaurant. Few residences in the community have seven bedrooms, making this a rental property with enormous potential. The location is ideal, nestled just a few blocks from the beach and nightlife.

The home's current owners have diligently remodeled nearly every space in the home since purchasing it. Their improvements have left the home in excellent condition, completely turnkey and ready for new owners.

Its bright and truly "beachy" aesthetic is welcoming and creates the perfect atmosphere for vacationing in paradise. Positive renters' testimonies and ratings on the home's AirBNB profile clearly demonstrate that people enjoy staying at this home and that the location brings a perfect balance between accessing downtown Tamarindo and the beach, while being removed from the noise and bustle. Playa Tamarindo is one of Costa Rica's most vibrant tourism hubs - its world-renowned surf break brings huge numbers of visitors from all around the world. New owners will be able to mold their dream here, whether they wish to bring their family down permanently, start a business here or enjoy a combination of living here while earning rental income.
